

## SCA and Webinspect Only Developer Custom Reports

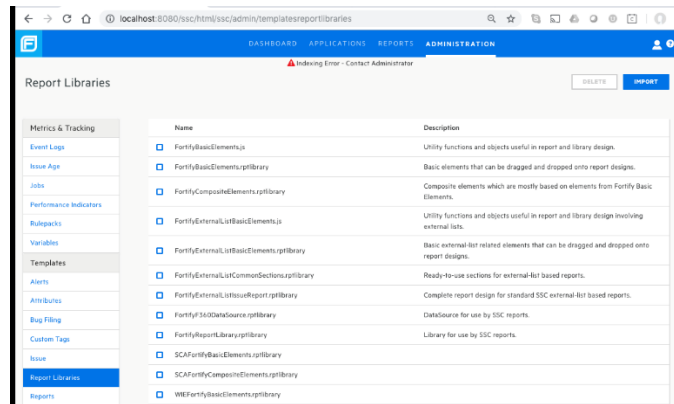

## Overview:

The following steps install four custom report libraries and two custom reports, a SCA Only and a Webinspect Only Developer Workbook report.

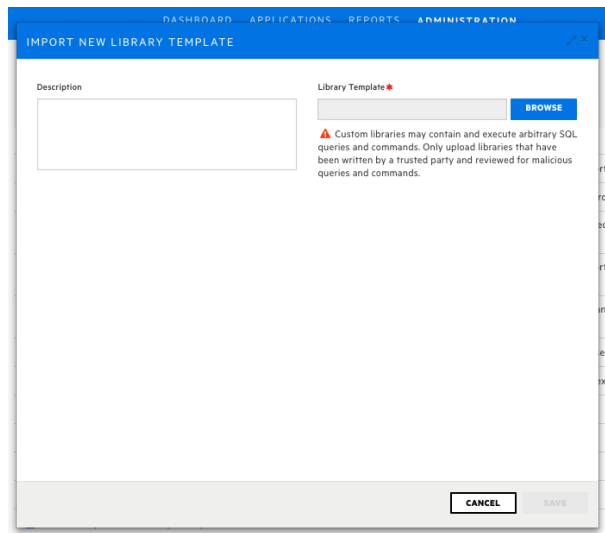

### Step #1: Install four Report Library files:

- SCAFortifyBasicElements.rptlibrary
- SCAFortifyCompositeElements.rptlibrary
- WIEFortifyBasicElements.rptlibrary
- WIEFortifyCompositeElements.rptlibrary

Import the four files listed above using the screen on the Administration/Templates/Report Libraries page.

Each file will be imported one by one.

## SCA and Webinspect Only Developer Custom Reports

Next import the Report Design File on the Administration/Templates/Reports page.

The screenshot shows a web application interface with a navigation bar at the top containing 'DASHBOARD', 'APPLICATIONS', 'REPORTS', and 'ADMINISTRATION'. The main content area is a modal titled 'IMPORT NEW REPORT TEMPLATE'. The form includes the following fields and controls:

- Name \***: A text input field with a yellow border.
- Category \***: A dropdown menu with 'Issue Reports' selected.
- Description**: A large text area for the report description.
- Report Engine \***: A dropdown menu with 'BIRT' selected.
- Template \***: A file upload area with a 'BROWSE' button.
- Parameters \***: A section with a warning icon and text: 'Custom templates may contain and execute arbitrary SQL queries and commands. Only upload templates that have been written by a trusted party and reviewed for malicious queries and commands.' Below this is a list of parameters and an '+ ADD PARAMETER' button.
- Buttons**: 'CANCEL' and 'SAVE' buttons at the bottom right.

Add two parameters with the report add parameter +:

- projectversionid --- Single Version
- IncludeSectionDescriptionOfKeyTerminology --- Boolean
